  - Tailwind CSS
  - PHP
  - HTML, CSS
- Version Controller
  - GIT (Github)
- Project Management Tool
  - JIRA, ClickUp
- Database
  - MySql, MsSql, MongoDB

PROFILE

As an undergraduate student at the University of Moratuwa, I'm deeply passionate about Information Technology, with a strong focus on web development. I enjoy exploring how technology can solve real-world problems and bring ideas to life through clean, functional design. I'm always eager to learn, collaborate with others, and contribute to building meaningful digital experiences.

EDUCATION

B.Sc. (Hons.) in Information Technology   2023 - PRESENT
Faculty of IT | University of Moratuwa
CGPA: 3.88 / 4.0
L1S1 GPA - 3.95 (Dean's list)
L1S2 GPA - 3.86 (Dean's list)
L2S1 GPA - 3.84 (Dean's list)

Rahula College Matara   2013-2022
G.C.E Advanced level - **2As 1B z-score-1.766**
(Physical Science Stream)

G.C.E Ordinary level - 9As

EXPERIENCE

Sri Lions Software   2025 JUNE - PRESENT
Intern Associative Software Engineer

- Assisted in developing, debugging, and testing software applications while collaborating with senior engineers. Gained hands-on experience with modern tools, agile practices, and team-based development and client interactions.

IES Labs | University of Moratuwa   2025 - PRESENT
Software Developer

- Contributing to the integration of IoT and embedded systems with modern web and software applications. Collaborating on real-world projects that bridge hardware and software to deliver intelligent, connected solutions.

Manusath Handa Project Rotaract   2023-2024
Co-chairperson

- Led a large-scale initiative to empower visually impaired students by creating accessible educational content. Oversaw website redesign, organized voice donation camps, managed volunteers, and coordinated outreach events to expand the project's impact.

PROJECTS

MushHub-Mushroom seeds company Management System 2nd Year Project - 2024 -2025 July   COMPLETED

Software Project by Aureate Solutions

- Designed and developed a comprehensive management system for a mushroom seed manufacturing company to streamline operations across multiple departments.
- Technologies: **Angular, ASP.NET Core, MS SQL Server, Firebase**
- Github repos: backend_repo (private), frontend_repo (private)
- Role: Full stack developer   Demo link: mushhub_demo

TerraSmart: Automated IoT Terrarium for Simplified Plant Care - 1st year hardware Project -2023-2024 July   COMPLETED

- Developed an IoT-based automated terrarium system using ESP32 microcontroller and created responsive web dashboard for real-time monitoring and manual control.
- Technologies: **ESP32, Thingspeak, C++, Ardiuno IDE, HTML, CSS**
- GitHub repo: terrasmart   Demo link: terrasmart_demo
- Role: IoT & Hardware Development

Personal Portfolio website - 2025 August   COMPLETED

- My personal portfolio website showcasing my projects and skills.
- Technologies: **Next.js, Tailwind CSS, Typescript, Framer Motion**
- GitHub repo: portfolio-website   Demo link: portfolio-live
- Role: IoT & Hardware Development

TrackMe - Courier Parcel Tracking App -2025 July-present   ONGOING

- A courier parcel tracking application with real-time updates and notifications for courier admins and customers
- Technologies: **Next.js, Ballerina, MongoDB, Tailwind CSS**
- GitHub repo: trackme-repo   Demo link: trackme-demo
